Briefing to JLLOTS R&D Symposium - 31 Jan 02

The Force Projection / Strategic Maneuver Management Challenge

- Effectively **manage complex task** of Force Projection / Strategic Maneuver which ranges **across many domains** (concepts, doctrine, force structure, requirements determination, materiel, S&T, processes, etc.).
- **Accomplish programmatic unity of effort** among numerous diverse and multi-level agencies throughout the Service and Joint Force Projection communities.
- Establish **viable priorities**, **focus “limited resources,”** and share “information” on programs and initiatives.

Bottom line: Must identify, prioritize, and gain resourcing for those high payoff programs and

Force Projection Information Center (FPIC)

HQ TRADOC
(DCS/CD)

ASAALT (PEO

Description

CS/CSS)
Supports the Warfighter
improving Strategic
Responsiveness.

- FPBL(SE) represents TRADOC in Force Projection arena with PM Force Projection leading combined effort.
- Consortium of warfighters, Service and Joint HQ staff elements, Battlefield Laboratories, combat/materiel developers, R&D agencies.
- Supports the warfighter by improving deployment and strategic responsiveness via use of an interactive, web-based information

Background

- Evolved from the Force Projection Center of Excellence (FPCOE) initiative.
- Interest in FPIC website and repository expressed by DALO-FPM, P2COC, CSS Battle Lab, and MWO webmaster.
- Provides the Force Projection community an enabling tool to manage and share information in an interactive environment.
- Draft FPIC charter completed.
- Preparing for membership data call and identifying key initiatives to host.
- Initial FPIC website framework & demo completed; functionality refinement and technical requirements in progress.
- Launch FPIC website in Apr 02.

FPIC Website Information Briefing

**FPIC Co-chaired by: Project Manager, Force
Projection and**

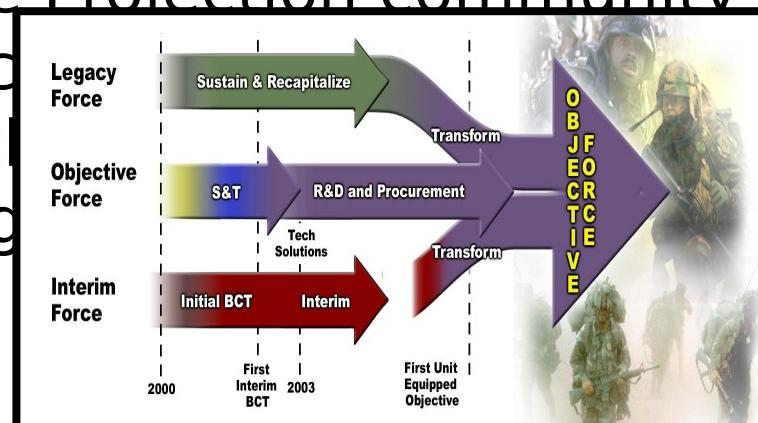

**Force Projection Battlefield Laboratory
(Support Element)**

Agenda

- Website Overview.
 - Purpose.
 - Major Tasks
 - Organization.
 - Walk-Thru.
- Website Management.
 - Documentation.
 - Milestones.
- Summary.

Website Purpose

- Support the warfighter by creation of a dynamic, comprehensive information tool (repository and knowledge database) tailored to Force Projection requirements and content.
- Support Army Transformation deployability goals by providing **unclassified** information via web-based access to Joint and Army publications & policies, major studies, experimentation, scheduled conferences and other forums.
- Assist the Force Projection community in documenting and tracking S&T efforts by assembling/archiving of major findings

Major Tasks

- Provide management and technical team, hardware and software required to establish repository and develop website.
- Obtain appropriate approval(s) and required domain registration.
- Host, operate and maintain the website IAW existing DOD standards and local policies.
- Participate in meetings, develop liaison(s), solicit, gather and consolidate information pertaining to high payoff Force Projection enablers.
- Receive, review, document and post Force Projection-related content.
- Respond to comments/action items and reconcile content as required.
- Provide physical security of website equipment and

Website Organization

- Main Website Pages:
 - Home Page (Organizational Description and Mission).
 - Calendar (120 Day Quick Look, Major Events Calendar & POCS).
 - Pubs (Joint & Army Doctrine, FMs, Concepts).
 - Links (Joint agencies, Services, S&T Agencies ...).
 - Members (List of FPIC Members With Home Pages).
 - Charter (FPIC Authorization Document).
 - FPIC Summits (Archive of Quarterly Meeting Minutes, Briefings).
- Restricted (Login Access) Pages:
 - Deployment Toolkit (Checklists, Regulations, Forms ...).
 - ASTMP (Force Projection S&T Objectives).
 - DCSLOG Enabler List.
 - Materiel Developer Technology Fact Sheets.
 - Tailorable Search Filters (Perform Keyword Queries of Database).
 - Force Projection Related ATDs, ACTDs, CEPs.
 - Objective Force Capabilities (OFC) / Future Operational Capabilities (FOC). Improving Force

Walk-Thru

Welcome to the Force Projection Information Center

Improving Force Projection of the Transforming Army!

[home](#)[calendar](#)[pubs](#)[links](#)[members](#)[charter](#)[fpic summits](#)

What is the Force Projection Information Center (FPIC)?

The FPIC is composed of a consortium of organizations within the Force Projection community organized to share information via the world wide web. Members include warfighters/CINCs, Service and Joint headquarters staff elements, Battlefield Laboratories, combat/materiel developers, and R&D agencies with responsibilities to support the accomplishment of strategic mobility goals stated in the Army Vision. It was jointly established by the U.S. Army Training and Doctrine Command (TRADOC) and Office of the Program Executive Officer, Combat Support/Combat Service Support (PEO CS/CSS). The TRADOC proponent is the Force Projection Battlefield Laboratory (FPBLSE), located at the U.S. Army Transportation Center and School, Ft. Eustis, VA. The PEO CS/CSS proponent is the Project Manager, Force Projection, Warren, MI.

What is the FPIC Mission?

The primary mission of the FPIC is to support the warfighter by improving deployment and strategic responsiveness. This is accomplished through the management of an interactive, web-based, information repository and knowledge database to support the development and improvement of current and future deployments across the framework of doctrine, training, leader development, organization, materiel and soldier (DTLOMS) and application of advanced technologies. Force Projection related concepts, analyses, studies, training, publications, experimentation, S&T, C2 automation systems, modeling and simulation, and combat/materiel developments are consolidated into an up-to-date, comprehensive, user-friendly website/tool. The website serves as a clearinghouse for Force Projection related information to assist in efficiently managing a complex task that ranges across many domains and numerous diverse and multilevel agencies. It facilitates programmatic unity of effort, reduction of redundancies, and identifying priorities to focus limited resources on the high payoff programs supporting strategic responsiveness.

Content Submission

Form

All content submitted for posting on the FPIC website will be outlined on standard form and emailed to the web manager or webmaster. This form will be available on the website.

All Summary Content Log Sheets will be maintained as an electronic record. The website team will maintain a log of all content received to document the source, date received and disposition.

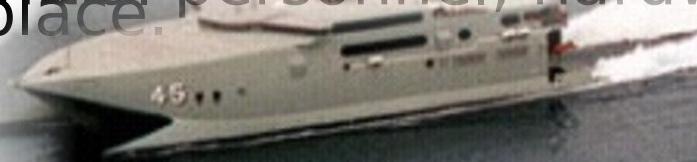

Milestones

- 11 Dec 01: Website overview presentation to COL Hampson, Chief - Strategic Mobility, Force Projection & Distribution, ODCSLOG.
- 21 Dec 01: IPR. Website overview presentation to COL Harman, Vice Dir. CSSBL.
- Jan - Feb 02: IPR. Finalize website website restricted login area, repository and database structure. Develop formal DOIM & post level staffing packet.
- 23 Jan 02: Website overview pre-brief to MG Dail.
- 24 Jan 02: Website overview presentation to Power Projection COC.
- 30 Jan 02: Website overview presentation to JLOTS R&D Symposium.
- Mar 02: Test website (Internal). Conduct formal data call. Website Demonstration to FPIC Co-chairs (TBD).
- 1 Apr 02: Deploy public domain website to Internet. Continue refinement.

Summary

- Value-Added Functionality:
 - Access to Public Domain and Restricted Login Force Projection Content.
 - Calendar of Force Projection Related Activities with Designated POCS.
 - Centrally Located Joint / Service Deployment Links and Publications.
 - Liaison With Mobility Warrant Officers to Support Training & Develop a Warfighter's Deployment Toolkit.
 - Tailorable Search Filters of Force Projection Database.
 - Army Transformation Links and Wargame Insights.
 - Host and Support Force Projection S&T Events and Activities.
 - Email Contact: Online User May Submit Questions and/or Comments.
- Initial personnel, hardware and software assets in place.

**~~Improving Force Projection of the
Transforming Army!~~**

FPIC Value-Added

- Supports the warfighter by improving deployment and strategic responsiveness through information sharing.
- Provides access to information across a broad spectrum of Force Projection programs and initiatives.
- Synchronizes efforts among numerous agencies working Force Projection enablers.
- Venue to host high visibility, high payoff programs
 - ✓ A low cost, high payoff capability.
 - ✓ More than just a website.
 - ✓ Infrastructure is in place.
 - ✓ A tool that does not currently exist.
- Springboard to JFCOM
